

PC CABLES

FIREWIRE / IEEE 1394 CABLE

Y.C. Cable is proud to present various types of IEEE 1394 cables; including 6-6P, 6-4P, and 4-4P. Our ISO approved cables are high in quality and excellent in performance. The products provide an important linking technology which bridges the consumer and computer world, and facilitates the new digital high speed information transmission function. IEEE, UL Listed, PVC, Beige, Foil and Braid Construction.

IEEE1284 PRINTER CABLE

Connects your IEEE printer to your parallel port on your computer. The latest laser printers require this standard in order to print faster. It is downward compatible so that it will work with a printer that does not require it. PVC, Molded, UL.
