### NETWORK & BNC CABLE TESTER

#### TEST-101

Newly designed and very practical tester that can easily read the correct pin configuration of 10Base-T cable, 10Base-2 cable, RJ45/RJ11 modular cables, 258A, TIA 568A/568B and Token Ring cable etc. by comparing one transmitting end to the corresponding receiving end. With the remote kit it can test cable installed far away or either on wall plate or patch panel. It is easy to verify the cable continuity, open, short and cross-connect.

<p>Profile:</p> <ul style="list-style-type: none"> <li>RJ45 Jack</li> <li>RJ45 Jack</li> <li>LED Display for sourcing end (Jack1)</li> <li>LED Display for receiving end (Jack 2)</li> <li>Power Switch</li> <li>LED Scanning mode Switch</li> </ul>	<ul style="list-style-type: none"> <li>Test Switch for Manual Scan</li> <li>RJ45 Jack</li> <li>LED Display for Receiving End (Jack 2)</li> <li>Ground LED for Receiving End</li> <li>Battery Compartment (9V)</li> </ul>
